Product designer, 4+ years across web, mobile, and desktop. I start at the problem, not the screen, and would rather put a working thing in front of people than a static mockup. Most of my work is design systems, accessibility, and getting things shipped.

Skills

Design	Figma, Adobe XD, Framer · design systems, design tokens, prototyping, interaction design
Research	Usability testing, user research, design thinking, discovery-to-delivery ownership
Practice	Accessibility (WCAG AA) · tone-of-voice and editorial guidelines · AI-assisted prototyping · Agile

Experience

AmaliTech/ Associate UI/UX Designer 2024 – Present

- Co-led the website rebuild off an outgrown WordPress template onto a CMS the team owns — **+15% time on site**.
- Built the design system, tone of voice, and editorial guidelines from scratch; the team now publishes on-brand without a designer in the loop.
- Deutsche Telekom** (ongoing): redesigning several platforms onto their OneDesign system, tightening UX along the way.
- Brock**: modernised the platform UI in a short, focused engagement.

AmaliTech/ Junior Associate UI/UX Designer 2023 – 2024

- Designed user-management and asset-tracking platforms across multiple product teams.
- Supported accessibility-focused mobile app development as UI and interaction designer.

Freelance/ Product Designer 2022 – 2023

- Research, wireframes, and prototypes for startups and NGOs.

Selected Projects

Self-directed products — designed, then taken all the way to working software

- Meeting room booking** — search by time, capacity, and amenities; drag to create; conflict detection so nothing double-books. Recurring bookings, ICS export, utilisation reports. **~30% faster to book**.
- Weaver** — reads your taste from what you've saved, then surfaces new work ranked to it, keeping room for exploration rather than replaying your history. Shipped as a PWA.

Education & Certifications

University of Cape Coast, Ghana / BSc Computer Science · 2018 – 2022

IBM / Enterprise Design Thinking Co-Creator · 2023

Coursera / Google UX Design · 2023
